Everything is made up of energy, from your thoughts, to your body, to your emotions. During a clairvoyant reading Jen Thomson is able to simply “tune in” to these energies that are always around you and communicate what she sees. All information is relayed from a neutral space of non-judgment. Readings can be done on the subject of your choice: relationship, career, your creativity, your spiritual path, spirit guides, past lives, or a general aura reading.

A clairvoyant reading is a very powerful and validating experience for most people. It is an opportunity to look deeply into yourself & your patterns and clear energy from your space that is either not yours, or is not working for you. Clearing these unwanted or foreign energies allows you to bring in your own spiritual information and get clarity. Through a clairvoyant reading you can begin to deprogram and transform your spiritual and physical body instantly.

The best way to come into a reading with Jen is without any preconceived notions or expectations. Try to leave behind what you have read in books, been told by others, or even what you believe, and allow the experience to unfold naturally. Don't be afraid to jump in and ask questions. Most of all just relax and hopefully have fun!

*Jen Thomson has been working professionally as a reader for ten years. To this day, she remains devoted to consulting with those seeking their truth, and revealing insights in all areas of life. She is passionate and fully committed to assisting others with the development of their inner well-being, helping them to move past limitations and into a place of empowerment in themselves and their lives.*
